Vol. 3 No. 46

MOKENA, ILLINOIS, FRIDAY, JUNE 16, 1922.

Price, \$1.25 per Year

KANSAS TRACTION LINE BUYS JOLIET & EASTERN EQUIPMENT

Rolling stock, rails and all equipment of the Joliet and Eastern Traction company was sold by the receiver late Tuesday to G. E. Theis, Jr., president of the Arkansas Valley Traction company, of Wichita, Kansas, for \$82,000. The sale was approved by Judge Dibell, of the Circuit Court, this morning.

Theis, with two other officials of the Kansas company, visited Joliet Tuesday, and after an inspection of the Joliet and Eastern line and stock, completed his offer of \$82,000 for the rails, wire and equipment. This was the highest offer received by the receiver, being

\$19,500 higher than that of Hyman, Michaels and company, of Chicago.

The rails and equipment will be shipped at once to Kansas for use in the extension of the Arkansas Valley line into the oil fields.

It is probable that the affairs of the railroad will be closed during this term of court. The receiver will continue to act until the distribution is made by the stockholders.

The railroad operated by Mr. Theis is an extensive line, and connects with all the coast and west cities thru Kansas, extending south to Oklahoma.

DRIVE ON FOR PLAYGROUND EQUIPMENT FUND

Some time ago a movement was inaugurated in Mokena to raise money with which to purchase playground equipment for the Mokena public school, said equipment to cost approximately \$450.00. Following are the names of those who have contributed toward this fund:

Ona E McGovney, \$10.00; John J. Balaz, 10.00; E. C. Sippel, 5.00; Frank Hirsch, 1.00; P. H. Hacker, 1.00; Arthur Benson, 1.00; G. M. Kraus, 1.00; Adolph Aschenbrenner, 1.00; John Gilmore, 2.50; A. C. Scheiblich, 2.00; Harry Kohlhagen, 2.00; Chas. Liese, 2.00; Albert Hellmuth, 1.00; Paul Rinke, Jr., 2.00; John Frisch, 1.00; Walter Fisher, 5.00; W. H. Bechstein, 5.00; Harvey Reab, 1.00; A. Balaz, 2.00; Herman Schweser, 2.00; W. Johnson, 1.00; Frank E. Hirsch, 2.00; Arthur G. Zumstein, 50c; G. E. Wannamacher, 1.00; Mokena Hardware Co., 5.00; Carl Wachter, 5.00; C. A. Rinke, 2.00; John Wannamacher, 1.00; Frank Aspel, 1.00; Wm. Semmler, 1.00; G. A. Olson, 1.00; Emil Man, 1.00; Harold Spiess, 1.00; Henry Miller, 2.00; Edward Scheukel, 2.00; Louis Steinhagen, 1.00; Cooper & Hostert, 2.00; Emil Barges, 2.00; Fred Hunter, 1.00; Geo. J. Hacker, 5.00; Harry F. Mall, 5.00; E. P. Krapp, 5.00; Dr. G. A. Kerr, 2.00; J. C. Nielsen, 10.00; Karl Kraus, 2.00; D. Kolber, 5.00; K. E. Krapp, 1.00; L. Zumstein, 2.00; Albert Braun, 5.00; Wm. Helenhouse, 2.00; Henry Stellwagen, 50c.

MOKENA SHOESHOP CHANGES HANDS

Fred Leonhardt, who has been operating a shoe repairing shop in the Barnes building for a number of years, sold out his business Monday night to Otto Marquardt of Joliet, who will take possession on Monday morning and will operate the shop as was done by Mr. Leonhardt.

Mr. Marquardt was in the employ of Mr. Leonhardt for six years when the latter was located in Joliet, and comes highly recommended as a good tradesman.

COMING

The Community Cinema Shows will give exhibitions of Chas. Chaplin, Wm. S. Hart, Mae Marsh, Lillian Gish and others in some of their finest film plays at Hatch hall, Mokena, on Monday, Tuesday and Wednesday, June 19-20-21. A free show will be given Monday in front of the hall at 7:45 p. m. Standard time, and the regular show at 8:15 p. m. This company brings its own electric light plant, which is especially constructed for brilliant motion pictures, and uses two picture machines, so that there are no delays to change reels. Admission 15c and 25c, including war tax.

Selma Krapp, 6.25; Cora E. Maue, 6.25. Thus far \$143.50 have been subscribed. The school board is very anxious to see the drive go over, and are getting ready to push it this summer, so that the necessary playground equipment can be purchased by fall. Everyone is urged to help this drive along.

"Big Protection for Little Money"

Do you know we are equipped

to safeguard your valuable papers—Bonds, Notes, Insurance and Pension papers, as well as jewelry, silverware and other treasured articles?

When we say "Big Protection for Little Money" we mean a box in our Safe Deposit Vault which rents by the year as low as \$3.00

Even a person who has only a few valuable papers needs this protection. We'll gladly explain this service if you will give us an opportunity.

ORLAND STATE BANK
ORLAND, ILLINOIS

Orland Bank In Big Drive To Increase Deposit Accounts

The Orland State Bank is reporting a wonderful growth in business, and its energetic cashier Geo. E. Gee, is going to make the bank "go over the top" by way of more increased business. This enterprising banker has set deposits of \$800,000 as his aim, and is bending all efforts to make the deposits reach the \$200,000 mark by July 1st, which marks the end of the first six months of the banking year. Mr. Gee has secured many new accounts, and extends an invitation to everyone in the community and surrounding territory to become patrons of the Orland State Bank. He has been very successful in securing many new and large accounts thru his solicitations. No account is too small. The patronage of everyone in the community is solicited, so that this bank will be able to "go over the top" by the time set. The deposits now total over \$160,000.

Worth Land Owners Balk on Oil Leases

The Warth oil well fever has not died-out, although the matter has rested for some time. The oil promoter who has leased such land in this section was here the other day, and stated that there are two farm owners who have refused to sign up leases for their property, and because he finds the prospects so good, he does not want to start drilling operations unless he can secure lease rights on all of the land in this section, and when this is done, he will proceed with the drilling operations.

Frankfort Child Swallows Money

Swallowing money is a hard job sometimes, as was the case of the little son of Mr. and Mrs. Geo. Schroeder of Frankfort, when he swallowed a nickel while at play Sunday afternoon. He started to strangle as the coin became lodged in his throat. The frantic parents tried to get Dr. W. V. Hedger, but he was out of town. Dr. G. A. Kerr of Mokena was tried next, but he, too, was out of town. As a last resort the choking youngster was given a good shaking, which forced the coin loose, and he swallowed it. No bad after effects were reported.

Tinley Park Will Play Frankfort Sunday

The Tinley Park A. C. baseball team traveled to Mokena Sunday, June 11, and were defeated by a score of 11 to 2. This makes one win and one defeat for both teams, Tinley having defeated Mokena at Tinley Park, May 27, by a score of 15 to 4.

Next Sunday Tinley will play Frankfort at Tinley Park, and hope to redeem themselves, as 4 defeats in a row has brought the management to a point where they feel that they must put on an entirely different lineup on the field. A shakeup is being made now in that lineup and new players put in to fill the gap which some players left and others could not fill. A good game is expected, and will be played on Tinley Park home grounds, beginning next Sunday.

The team is now ready to play any fast semi-pro team in or around this part of the country, no team barred.

Always. When you buy admiration you are compelled to pay for it regularly if you wish to keep it.

ORLAND GIRL IS ATTACKED ON ROAD BY MORON

Great excitement was aroused around Orland, Thursday morning, when the report spread that a moron had attacked Esther Doctor, 28-year old daughter of Chas. Doctor, supervisor of Orland township.

According to the story of the affair, Miss Doctor had gone to the mail box for the morning mail, and when she failed to return to her home, her father went out to see what the trouble was. He could not see her at first. He walked up the road, when he saw a man get up out of the weeds alongside the road, and upon further investigation found his daughter alongside the road with the finger marks of her assailant on her throat. The man denied harming the girl, and started down the road.

Mr. Doctor went in the house, got his gun, and fired after the fleeing man. He did not hit him, and the man hid in a hedge between the Kann and Yunker farms where he was later caught by a farmer posse. He was held until the chief of police of Blue Island was notified and came after him.

It is alleged that when questioned at the police station, he admitted he had attacked the girl. He told many conflicting stories. It is understood he was placed under \$10,000 bonds. He only had a fish line and 2 cents in his pockets when searched. He acted queer during his questioning. He said his name was Earl Steinberger, and that he was from Logan county, Ohio.

New Lenox In Midst Chautauqua Session

The New Lenox Chautauqua opened Thursday with a wonderful program. Interest is good, and big crowds from the surrounding towns are looked for. There will be many high class features at all of the meetings.

Harold Bell Wright's master piece, "The Shepherd of the Hills," will be dramatized as one of the leading features of the entertainment. Prominent speakers and musicians will also contribute to the program. Among them are the Rev. J. M. Rudy, Dean W. J. Lhamon, both lecturers of note; Opal Craven and June Elliott, readers; the Dixie Girls, Craven vocal quartet and DeWillo's musicians.

Patrons of the Chautauqua are: Bert Brown, Peter Johnson, Peter Sinclair, T. J. Doig, W. R. Lynk, E. Mangin, Albert J. Pfaff, Laura Jones, J. R. Bowen, J. D. Bell, G. Harlow Francis, Henry L. Rust, Archie Corp, Ben Studman, H. B. Frances, Harry W. Storm, James W. Owen, E. A. DeLong and A. M. Rutledge.

Save These Dates

All dance enthusiasts have been asking, "When is the next dance at Mokena?" So the News-Bulletin is herewith printing the dates for the entire season. Clip them out and save them for future use. The dates are as follows: June 24, July 4-22, August 5-19, Sept. 4-16-30, Oct. 14-28.

The Mokena Men's Club, at their meeting held Monday night at the Mall Lumber Co. office, decided on having a Fourth of July celebration at their pavilion. There will be all kinds of games and sports. Dancing afternoon and evening.

FOR SALE

Upright Piano, with bench and scarf. Reasonable.
C. L. REYNOLDS, Mokena.

WILL LAY CORNER STONE FOR \$45,000 MOKENA CHURCH SUNDAY

St. John's Evangelical Church of Mokena, Ill., is looking forward to the celebration of a notable event in its history, the laying of the corner stone of its new church edifice on Sunday, June 18th, at 2 p. m.

A cordial invitation to all members and friends, as well as to all neighboring churches and their pastors, is herewith extended.

An impressive program will be carried out, during which Rev. G. Lambrecht, of Frankfort, will speak in German, and Rev. W. E. Uhrland, of Blue Island, in English.

The actual corner stone laying will be in the hands of Rev. Wm. Kreis, pastor of St. John's, all the visiting ministers and the building committee. Following the usual custom, a number of articles and papers, sealed in a copper box, will be enclosed in the stone.

During the service several selections will be rendered by St. John's Mass Chorus and a male quartet from Frankfort, and an offering for the benefit of the new church will be taken up.

Concerning the new edifice, a detailed description will be forthcoming after its dedication. At

present it may suffice to say that the church is being erected on a beautiful piece of property in the heart of the town. It is built of red brick with Bedford stone trimmings, in the form of a cross, 88 feet long and 46 feet wide, the extreme width at the side extensions being 72 feet.

The basement has spacious Sunday school and social rooms, and has all the equipment of a modern church community center. The aggregate cost of the church is approximately \$45,000.

The building committee was very fortunate in selecting for its architect Messrs. Leonard F. W. Stuebe & Co. of Danville, Ill., and Mr. J. W. Montgomery of Sidell, Ill., as general contractor. They are specialists in their profession, and have at their disposal all the modern ideas of this phase of the work.

The new church is indeed a credit to the congregation and to our community.

May it be in truth a temple of the Triune God, a place where His glory dwelleth and where His faithful children will gather for worship to honor Him, whom they serve.

WM. KREIS, Pastor.

Carl Hirsch of Mokena Marries Joliet Girl Number of Moonshines At Dances Saturday

Carl Hirsch, son of Mr. and Mrs. Julius Hirsch of Mokena, and Miss Lucille Boyd, daughter of Mr. and Mrs. James Boyd of Joliet, were united in marriage Saturday afternoon at the bride's home.

The bride wore a white organdie with lattice trimming, vine and pale blue petals, and her flowers were a shower bouquet of lilies of the valley and Sweetheart roses. Hervel was of white tulle, becomingly caught in coronet effect with valley lilies.

With their bouffant frocks of organdie, the bridesmaids, Miss Isabelle Boyd, sister of the bride, and Miss Julia Mae Hirsch, sister of the bridegroom, wore corsages of pink rosebuds.

James Boyd, brother of the bride, and Edwin Hirsch were the groomsmen.

The double ring ceremony was read by the Rev. T. DeWitt Tanner, rector of Christ Episcopal church, at 1 o'clock in a bower of palms and roses erected in the living room of the home of the bride's parents.

Guests were immediate relatives of the couple, and those from out of town were: Mr. and Mrs. George L. Thompson of Gary, Ind., Mr. and Mrs. Lewis A. Thompson of Plainfield, Mr. and George Matthews of Anderson, Ind., Mr. and Mrs. Julius Hirsch,

Sheriff James Newkirk and his deputies swooped down on the New Lenox dance hall, Saturday night, and arrested six young men for having moonshine in their possession. The cars of these young men were searched and bottles of moonshine found therein. They were taken back to Joliet.

The sheriff and his deputies then proceeded to Mokena, but only found a few men with moonshine at a dance there. The men who had the illicit liquor were outsiders.

parents of the bridegroom, and Mr. Charles Hirsch of Mokena, Mrs. John Bear of Blue Island.

A reception and dinner followed the ceremony.

Mr. and Mrs. Hirsch will reside, after a short wedding trip, in Mokena. They will be "at home" after July 1.

Mrs. Hirsch is traveling in a suit of beige crepe knit, with a hat of mohair braid in a harmonizing shade.

The many friends of Mr. and Mrs. Hirsch extend their best wishes for a happy wedded life.

Mr. Hirsch is one of Mokena's popular young men and an industrious agriculturist and stock raiser.

Why You Should Have a Bank Account

and pay with checks. First, your check is a receipt for bills paid. Second, you have no difficulty in making change. Third, your money is absolutely safe from loss, robbery and fire. Fourth, it gives you a credit that is of great value in times of need.

We invite you to open an account at this Bank

Something to Think About

By F. A. WALKER

SILENCE

PLAY the silent part in all your joys and sorrows. Let neither excessive happiness nor great grief overwhelm you.

Control your speech and spirit under all conditions, even when the clanging din around you urges you to trumpet-tongued retorts.

When the storms of mischief-makers shake your house of clay to its very foundations and cause your soul to tremble with apprehension, hold your peace.

Be cool and calm and patient.

To be otherwise is perilous as it invites fresh attacks from those seeking your destruction.

Curb resentment through the snarling tempest; lift up your face to the whirling clouds, and remember that beyond them there is always the clear, serene sunlit sky, indifferent to the clamorous noises below.

"Let not your heart be troubled."

Think of the content that will ultimately be yours if you hold loyalty to the right course and continue in well doing.

Think of the eyes that are watching you, the loved ones who are dependent on you, trusting and believing in the nobility of your soul.

Do nothing, think nothing and say nothing that will shake their faith in you, or cause you to lose faith in yourself.

By keeping still in great stresses of emotion the atmosphere around you becomes cooler, and your enemies or accusers gradually lose their heat and become more easily susceptible to reason.

Silence is the most magnificent and impressive thing in the universe.

What more sublime than the hush of a starry night in the solitude of vast hills or endless plains?

What more than silence impresses so deeply, so profoundly, the thoughtful man or woman of his or her insignificance?

These close intimacies with Nature, beyond all others, bring home to us long forgotten promises, old faces and friendships lost in the mist of years, with startling clearness.

But the best thing about silence.

whether we be with it in the verdured fields or forest, or in our own rooms, is that we get a closer view of our faults and frailties in quite a new and surprising light, frequently dazzling our wondering eyes and changing us for the better.

Uncommon Sense . . .

By JOHN BLAKE

ENJOY THE GAME

GENTLEMEN who play golf will tell you that the man who tries too hard never does very well at it.

Incidentally, he never gets any fun out of the game.

There are many parallels between golf and life, which is doubtless the reason that so many people are devoted to it.

Golf, of course, is a game, and only a game. Yet there are many of its followers who can see only the advantage of winning, and who come in sour and ill-tempered if they lose.

Others, while they try to win, get just as much fun out of it if they lose. And they never stamp on their clubs or throw them away, or swear at the caddies.

It is very important to win in anything. But it is more important to get your allowance of fun out of it as you go along.

Sitting wheezily in any rich man's club you will find old gentlemen who wanted to win more than anything else, and who did win fortunes, but lost their health and their happiness in the effort. And, with all their money, you can set them down as losers.

There is good sportsmanship in all human effort. There are things the good sportsman will not do, even to win. One of them is cheating; another is becoming so absorbed in the pursuit of victory that he forgets everything else as he goes along.

John Burroughs, who probably never had more than the necessities of life in all his existence, got full measure of enjoyment that was denied to many who made a thousand times as much money. Incidentally, he was a very successful man, for he added to the sum of human knowledge.

Win if you can. Get a fortune if you can. Money means independence, and the ability to do good in the world.

But never forget that there is enjoyment as well as trouble in life, and that if you are not too intent on winning what the world calls success, you will be happier as you go along, and stand just as good a chance of making your life worth while, and the world better off because you lived in it.

Mother's Cook Book

"He who receives and entertains his friends, and who does not, himself, personally, give supervision to the feast which he offers them, is not worthy of having friends."

FRESH FISH

IN THE parts of the country where fish may be caught, cooked and eaten the same day, there is no more appetizing and healthful food. Fish should be cleaned and placed on ice, never leaving it until put into the oven or broiler; then the flavor will be good and the dish appetizing.

Pike, bass, pickerel and perch all abound in the fresh waters. There are any number of ways of serving them. Stuffed and baked, the pike and pickerel are excellent. The perch are usually fried until crisp and brown. They should be rolled in seasoned flour before cooking.

A meaty fish is very good boiled in acidulated water and served with cooked spinach and this sauce:

Banana Filling.

Scrape and mash two ripe bananas, add one tablespoonful of lemon juice, two tablespoonfuls of powdered sugar and one-half cupful candied orange peel. Use on yellow cake, top with whipped cream.

Creole Sauce.

Sift one can of tomatoes (a pint), season well with one teaspoonful of salt, a dash of cayenne. Add one cupful of fresh mushrooms that have been cooked in butter for five minutes. To the butter left in the pan add two tablespoonfuls of flour; stir until smooth. Add to the sauce and cook all together until thick. Add two teaspoonfuls of onion juice, one green pepper, finely chopped, and pour the whole over the boiled fish.

Forty Kinds of Buoy Used.

There are forty different types of buoys used at sea, each of which has a meaning of its own.

ILLINOIS NEWS BRIEFLY TOLD

To meet various objections advanced in relation to previous plans for the construction of the Illinois waterway for which the people of Illinois voted the issuance of \$20,000,000 in bonds, a new bill has been drawn to be introduced in congress as a substitute for the Michaelson bill which is expected to be withdrawn. The new measure has been approved by Mortimer G. Barnes, chief engineer for the division of waterways, department of public works of the state of Illinois. It is designed to obtain the support of the advocates of inland waterway development as well as to meet the needs of the Chicago sanitary district in the amount of water required for sewage purification.

Mrs. Ora Downs Ridgley, reputed once to have been one of the wealthiest women in Illinois, and formerly owner of a railroad in southeast Missouri, was buried recently at Assumption. She died penniless at Hot Springs, Ark. The burial expenses were borne by a friend, who for years had been the traveling companion of Mrs. Ridgley. According to her friends, Mrs. Ridgley lost her fortune in railroad speculation. She was the daughter of the late James Downs, who lived near Assumption and was regarded one of the wealthiest land owners in central Illinois.

All officers of the Illinois National Guard below the grade of brigadier general, and excepting division and brigade staff officers, have been ordered by Adj. Gen. Black, to submit "personal history and military records" to regimental examining boards, seven of which have been named to sit in Chicago, and two for down-state to sit in Springfield. These personal histories will be passed upon by the boards before the officers are admitted to the tests, required of all federally recognized officers.

Chicago's leading lawyers have been drafted to rid the city of terrorism. Eleven attorneys promised aid to Robert Crowe, state's attorney, in cleaning up the 170 bombing, murder and slugging cases on the court docket. All cases are the outgrowth of war on the Landis wage award. The lawyers all become assistant states attorneys. After they clean up the terrorism cases, prosecution of thousands of other cases pending in the courts will start.

More than \$30,000 collected by the Illinois food relief committee has been disbursed to flood sufferers in the Illinois flood regions. In addition to money, many contributions of grain have been received by V. Vaniman of Springfield, appointed by the Red Cross to supervise this class of donations. The campaign for funds is still being carried on. It is expected the Chicago Association of Commerce will raise \$100,000 before closing its subscription.

Leaves, twigs and other rubbish near the Sangamon river just north of Springfield have been stripped from a cluster of trees and bushes by a 17-year locusts. The cicadas which have appeared this year are of the 1905 brood which take 17-year intermittent sleeps under ground. The invasion of the insects this year, according to entomologists, will be confined to northern Illinois, eastern Iowa, southern Wisconsin and northwestern Indiana.

Mrs. Anna Swift, who died recently in Chicago leaving an estate of \$3,085,000, bequeathed \$500,000 to charity, her will, probated a few days ago, showed. Sums of \$100,000 each were given to the engineering college of Northwestern university and the theological department of the University of Chicago. Fifteen churches and charitable institutions were remembered. Mrs. Swift was the widow of Gustavus F. Swift, founder of the packing company.

R. I. White, superintendent of schools of Elgin, handed his resignation to the board of directors to become effective September 1. After a short deliberation it was accepted. The superintendent's resignation follows a furore in the city and a campaign by indignant citizens to force his withdrawal as a result of the suicide of Mary Elizabeth Long, who killed herself after being discharged as a teacher.

Organization of the Illinois Pharmacy commission, a branch of the state department of registration and education, was completed at a meeting in Chicago. W. S. Benton of Beardstown was elected chairman and Ray Barnes of Bushnell, secretary. D. P. Seibert of Chicago replaced Ike Platt, also of Chicago, as a member of the commission. The other members remain unchanged.

Rev. James Reid, seventy-one years old, one of the oldest Methodist ministers of the state, is dead at his home in Marion, following an illness which he contracted during the recent conference at Hot Springs, Ark. Mr. Reid was a minister for more than forty years.

The popular belief that children of country school districts are healthier than those in the cities is contradicted by an investigation at Elizabeth by school nurses, which disclosed that 62 per cent of the pupils of the Elizabeth school are under weight.

The contagious disease situation during last week was better throughout Illinois than was the corresponding week last year, according to the statement of the director of public health. During the last week there were reported a decrease of 30 cases of diphtheria, 35 fewer cases of scarlet fever, and 48 fewer cases of smallpox. Typhoid fever had the same number of cases reported as for corresponding week in 1921. There was also during the last week a decreased number of cases of each of the diseases mentioned above reported as compared with the preceding week. The total for week follows: Diphtheria, 159, of which Chicago had 93. Scarlet fever, 91, of which Chicago had 50; Winnebago, 6. Smallpox, 27, of which Elmhurst township, Johnson county, had 12; Havana, 5; Peoria, 3. Typhoid fever, 14. Epidemic meningitis, West Frankfort, 1. Poliomylitis, Pana, 1; Tuscola, 1. Influenza, 3, of which Chicago had 1. Pneumonia, 131, of which Chicago had 104. Whooping cough, 127.

Pronounced by Maj. Gen. James A. Lejeune, marine corps commandant, to be "the most distinguished private soldier from Illinois," John J. Kelley, former private in the Seventy-eighth company of the Sixth marines, is proposed as the state's representative disabled hero to attend the convention of the Disabled Veterans of the World War soon to meet in San Francisco. Kelly is one of the two wearers of the Congressional Medal of Honor of both the army and navy. During the war he received three divisional citations. His record is to be forwarded to Governor Small by the American Legion. The governor is expected to make a choice shortly.

An attack on the Illinois Tax commission for its policy in valuing farm lands separately from other classes of state taxable property is contained in a booklet sent out to farmers and land owners in the state by the Illinois Agricultural association. This practice has cost land owners in Illinois from a million to a million and a half additional taxes in the past three years, the booklet says. The booklet is the compilation of a year's investigation of taxation during the past year made jointly by the state farmers' organization and county farm bureaus. It is captioned "Taxation of Farm Lands in Illinois."

Claiming to be the oldest horse trainer in the world, Lon Freeman, eighty-three, has charge of a string of four trotting horses at the race track in Champaign. He has been a follower of the turf for more than sixty years and is an authority upon everything appertaining to horse racing. He expects to drive his horses at a number of the leading harness race meetings in Illinois during the coming season. His fastest horse is a trotter with a record of 2:10.

About three-fourths of the fruit and vegetables crop of southern Illinois is being marketed co-operatively this year, it is estimated by C. E. Durst of the Illinois Agricultural association, as the result of the organization in the last year of the Illinois Fruit exchange of 1,000 members in eight counties. One local of the exchange, at Villa Ridge, has marketed co-operatively so far this year \$100,000 worth of strawberries and asparagus.

The Dekalb County Telephone company is defendant in a suit for \$20,000 damages filed at Sycamore by Mrs. Minnie Griswold. It is alleged the company grounded one of its wires on a pump in front of Mrs. Griswold's home and that during a storm lightning struck the wire at the same moment that Mrs. Griswold touched it, with the result that she received a shock and injuries from which she has not recovered.

Built in the days when Indians roamed the prairies where Rockford now stands, the last log cabin in Winnebago county, located two miles from Rockford, was destroyed by fire. All of the contents of the cabin, erected in 1840, were destroyed except a parrot and a tin box containing valuables owned by two bachelors. John Lake and Will Goodhue, who had lived in the cabin for more than thirty years.

Under a decision of the attorney general's office, farmers have the right to vaccinate their own hogs to immunize them against cholera. The opinion was made in a controversy over the question which arose when an attempt was made to enforce a ruling made some time ago by the state department of agriculture prohibiting vaccination of one's private stock.

A pageant in which 1,000 will take part is to be a feature of the state convention of Christian Endeavorers, to be held at Rockford June 29-July 1. The pageant, entitled "The Call," is in three episodes. The first deals with Old Testament events and the second and third with religious events from the Reformation to the present day.

A coalition Superior court ticket was elected at Chicago and five sitting judges were returned without difficulty. Two bond issues, \$3,400,000 for bridges and a lighting proposal, won. The annexation of the village of Maine also was approved.

Capturing a fledgling eagle that was learning to fly, a resident of Oregon sent the bird to the public park at Freeport to be added to the collection in the aviary. Eagles are nearly extinct in that section, due to the persistent warfare by hunters, and are rarely seen in late years.

Dr. L. C. Taylor of Springfield, executive secretary of the state board of medical examiners for the last 25 years, tendered his resignation to William Henry Harrison Miller, head of the department of education and registration.

WORKING GIRLS LOOK HERE

Read What Mrs. Lucas Writes Concerning Her Troubles, Which May be Just Like Yours

St. Louis, Mo.—"I had troubles that all women are apt to have, with pains in my back, weak, tired, nervous feelings and a weak stomach. I had been this way about a year and was unable to work or stand on my feet for any length of time. My husband's aunt told me how much good Lydia E. Pinkham's Vegetable Compound had done her and begged me to try it, so I did. All my pains and weakness are gone, my stomach is all right and I do my work at home and also work for Swift's Packing Company. I recommend your Vegetable Compound to my friends and you may publish my letter as a testimonial."—Mrs. LULU LUCAS, 719A Vandeventer St., St. Louis, Mo.

Again and again a woman tells another of the merit of Lydia E. Pinkham's Vegetable Compound.

You who work must keep yourself strong and well. You can't work if you are suffering from such troubles. Mrs. Lucas couldn't. She tried our Vegetable Compound and her letter tells you what it did for her. Give Lydia E. Pinkham's Vegetable Compound a fair trial now.

"Willing to Pay."

Two colored ball teams were assembled and were about to start their game, but discovered one of their fielders missing. Their captain asked for someone from the crowd to fill the fielder's place. A tall gent said he had some experience, so they put him in the game. Everything went all right till it came his turn at bat. After the newcomer had swung at two pitched balls he connected with the next one and it went soaring over the fence. The crowd all began to yell "Run! Run!" But he didn't get it, and turning to the crowd he shouted: "Run nothing. I'll buy them another ball!"

Proof.

"Hubby, do you love me?"
"Of course."
"How much do you love me?"
"Well, here's my check book. You can glance over the stubs."—Judge.

Help That Aching Back!

Is your back giving out? Are you tortured with backache and stabbing pains? Does any exertion leave you "all played out"? Feel you just can't "keep going"? Likely your kidneys are to blame. Overwork, strains, hurry and worry tend to weaken the kidneys. Backache is often the first warning. Headaches and dizziness may come, too, and annoying bladder irregularities. Help the kidneys with Doan's Kidney Pills—the remedy recommended by thousands. Ask your neighbor!

An Illinois Case

James Overly, carpenter, 718 W. England St., Taylorville, Ill., says: "My rest was broken by the irregular action of my kidneys and the secretions contained sediment. I had a heavy dull ache in my back and stabs of pain took me when I stooped over. I also had itchy spells. Doan's Kidney Pills were recommended to me and I got a box. They cured me."

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at \$15 to \$30 an Acre—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches and schools, good markets, railroad facilities, rural telephone, etc.

For certificate entitling you to reduced railway rates, illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, etc., write

SCHOOL DAYS

The Friendly Path

By Walter I. Robinson

THINK FOR YOURSELF

IT IS always good policy to read clean literature, to consider the advice of those who should know what they are talking or writing about, and to listen to good sermons, but no one ever was kept on the right pathway by what he read or heard spoken unless he used his brain.

Everyone's life is in his own keeping. Whether he is happy or unhappy, whether he is successful or unsuccessful, whether he is earning for himself an eternal home in heaven or hell depends on himself. Wise men and honest men may direct one to the proper road, but no one can make a human being do what is right if he refuses to do so.

Nearly every one remembers that old proverb, "You can take a horse to water, but you can't make him drink." But too often the lesson it is supposed to teach falls on deaf ears.

It is always dangerous to follow the mob. One may become quite popular with a certain class if he will do as that class wishes. But popularity of that sort is seldom worth a great deal. Those who find real enjoyment in life and those who stand out as leaders are

seldom found in the midst of the most popular crowd.

If one's mentality is normal, whether he is educated or uneducated, he is likely to come near the proper goal if he uses his brain. But let him constantly depend on the judgment of others to direct his footsteps and the chances are ten to one that he'll be headed toward a fall.

No one knows as well as oneself what is good for him, except when illness comes and the skill of the physician or surgeon is necessary to mend the bodily damage. Yet millions constantly go whining about, seeking advice from their fellows, the while losing much of their just share of happiness.

When one accidentally stumbles or when he is pounced upon by the rattler hidden beside his path, his misfortune is excusable. But it is no excuse for man or woman of normal mentality blaming downfalls on others.

The wisest persons are those who don't think they know it all.

(Copyright.)

Asiatic Peoples.

Alpine people are frankly Asiatic. They originally come from the Pamir uplands. Half of the Alpine types of the present world, the Turkoman, the Turkish or Tartar, the Armenian and the Levantine are still natives of Asia. Living men of Homo Sapiens Alpinus or the normal round-heads of France and Germany have been found in Afghanistan and Samarkand, places from whence their ancestors had never migrated.

Ten-Cylinder Motor Truck of the Days of '49

They had ten-cylinder motor trucks in 1849 even if they haven't them today. The motor on this old freighter in the days of '49 celebration parade at Sacramento consisted of ten oxen, making one of the most picturesque sights in the revival of scenes of yesteryear.

COCK OF JEMAPPES

Again the "Cock of Jemappes" stands with proudly lifted comb atop the historic shaft at Jemappes. Thousands journeyed to this spot to view the re-dedication ceremonies, to the monument was rebuilt after being destroyed during the German drive in 1914 toward Mons. This memory commemorates the old battle of Jemappes where the French defeated the Prussians and Austrians on Belgian ground.

AUTOMATIC LIGHTHOUSE

New automatic lighthouse recently completed at Barry Holmes Gower, England. The only attention it needs is to be replenished once in two years with chemicals. When the actinic light value reaches a certain degree it lights itself, and when the daylight reaches a corresponding degree, it extinguishes itself.

Pathetic!

The girl was ragged, unkempt, and the dark rings around her beautiful eyes told of weeks of hunger and privation. Dejectedly she leaned against the gnarled trunk of the mighty oak and passed a trembling hand across her brow.

And snowflakes flickered in the chilly breeze, causing her to shiver. Her lips framed a prayer as she gazed hungrily around.

"Ah!" A cry of joy escaped her lips as she espied a crust of bread lying out on the snow-kissed grass.

Eagerly she pounced upon it, and carried it to her trembling lips, and ravenously devoured it.

Then a voice echoed through the wood: "Right, Miss Dainty!" and with a sigh of relief she hurried to her waiting automobile and drove away to her mansion.

For she was a cinema star!—Sheffield Telegraph.

Manhattan's Only Remaining Squatter

The high cost of living does not interfere with "Uncle Jim", the only remaining squatter on Manhattan Island. He has all the happiness of health, with acres of front lawn and with neighbors, some of whom are millionaires, in his "squatter mansion" on Riverside drive near the Hudson river shore. The photograph shows "Uncle Jim" Miller and his shack, which he has occupied for 22 years.

RADIO

VACUUM TUBE USED AS RADIO DETECTOR

How This Device Depends on Emission and Control of Electrons for Its Operation.

Readers of the radio column are urged to clip each article and paste it in a file book. The articles printed are continuous and the entire series will be valuable for reference.

The greatest advances made in the past few years in the radio art have been due in one way or another to the use of vacuum tubes. In view of this fact a more careful consideration of them will be of interest.

All of these tubes, known by a variety of names, such as radiotron, audion, seriotron (trade names of the manufacturer) depend upon the same fundamental principles for their operation. For the sake of simplicity of brevity these will be referred to in this column simply as vacuum tubes. A vacuum tube can be made to function as a detector, as an amplifier, or as an oscillator.

The vacuum tube depends on the emission and control of electrons for its operation. The electron is the smallest subdivision of matter which mankind recognizes and it carries the smallest known charge of negative electricity. For years previous to electron research it had been held by scientists that matter was built up of distinct particles or units which they called atoms and molecules. At first the molecule was assumed to be the smallest quantity of matter that could have a separate existence or take part in chemical action, but more vigorous research pointed to the fact that the molecule is made up of still smaller elements which are termed atoms; that is, a molecule may be composed of several atoms. Then for a time it was assumed that the atom was the very smallest quantity of an element that could exist, but later researches have revealed that atoms may be further subdivided into particles

Figure III

called electrons. The apparent mass of an electron is about one-eighteenth part of that of an atom of hydrogen which is the smallest of the chemical atoms.

According to the electron theory an atom consists of a definite number of electrons grouped around a nucleus having a positive charge and so long as none of the component electrons are driven from the atom, the latter possess no detectable charge. The positive charge on the nucleus is said to be exactly neutralized by the negative charges on the electrons grouped about it.

Suppose now that by some means an electron can be detached from the atom. Then the atom becomes what is known as a positive ion and it exhibits the properties of a positively charged body, or in other words since an electron which carries a negative charge has been removed from the atom which has equal positive and negative charges, the portion of the atom now remaining has a deficiency of negative charge and acts like any positively charged body.

On the other hand if some force can be brought to bear that will add an electron to a normal atom which is neutral as far as electrical charges are measured, the result will be a negative ion, which will possess all the properties of a negatively charged body. An atom then which has a deficiency of electrons is called a positive ion and one having excess of electrons is called a negative ion.

Since each electron carries a negative charge of electricity an electron represents a certain quantity of electricity. Forcing electrons to move from one point to another causes electricity to flow. The ability of any medium to conduct electricity or allow a current to flow through it depends upon the number of free electrons available as carriers of charges.

It has been known for many years that the space surrounding a piece of heated metal is a conductor of electricity. It has been demonstrated more recently that this is due to the release of electrons and that if an incandescent metal be placed in a bulb exhausted of all gases, pure electrons will be liberated from the incandescent metal.

In a vacuum tube such as we are using at the present time, the piece of metal used to furnish the electrons is called the filament and is usually made of tungsten and sometimes is coated with oxides to increase the electron emission. For convenience the filament of a vacuum tube is heated

ed by a battery current and it is this heat furnished by the battery current that constitutes the force that disrupts the atoms of the filament and liberates electrons.

Fig. III is a spherical glass bulb from which all the air and gases have been exhausted and having mounted in it a filament C-D which can be heated to incandescence by the "A" battery connected to it, and the metallic plate E. When the filament C-D is heated to incandescence by the "A" battery connected across its terminals electrons are emitted. Connecting the cold plate E to the incandescent filament C-D by means of the circuit E-F-G-H which includes a current meter and a "B" battery, with its negative side connected to the filament lead at H and its positive side connected through the current meter, the plate becomes electrically positive with respect to the filament.

Since like charges repel and unlike charges attract, there will be a movement of electrons from the filament to the positively charged plate, and the current meter will show a deflection which indicates that a current is flowing in the circuit E-F-G-H.

Increasing the "B" battery voltage causes an increase in the current flowing in the circuit E-F-G-H, the plate circuit, until the positive charge on the plate E is so strong that all of the electrons given off by the filament are attracted to it. Assuming that the temperature of the filament is kept constant and that the plate voltage has been increased to the point where all of the electrons given off by the filament are attracted to it, any further increases in the "B" battery voltage will not cause any increase in the current in the plate circuit.

Increasing the temperature of the filament will increase the total number of the electrons emitted.

FRISCO TALKS TO HONOLULU

New Radio Station at the Presidio Can Be Heard Half Way Around the Globe.

"Hello, Honolulu." That may sound like fiction, but it is a reality, nevertheless.

The new radio station at the Presidio, San Francisco, with aerial conditions right, can be heard half way around the globe. Officials in charge of construction declare it to be the most powerful vacuum tube transmitter on the Pacific coast.

Located on the highest point in the Presidio, overlooking San Francisco bay, two 150-foot aerial towers to augment its efficiency, the new station will command similar stations in Salt Lake City and Cheyenne.

Radiophones on German Trains.

Wireless telephone instruments will be installed on a number of important German express trains, and receiving instruments will be placed in hotels and embassies, according to an announcement made recently. Experiments conducted in a moving freight car have shown that the wireless system works well, the men engaged in the testing of the instruments being able to hold conversations with friends in Berlin. The tests were made under the observation of engineers, military attaches and the diplomatic representatives of the United States and Sweden.

Handling Vacuum Tubes.

When you handle the vacuum tubes of your receiver great care should be exercised that they are not knocked about or that the elements are broken. These little lamps are the heart and soul of the set. A good way to operate these tubes is to keep the glow just a little below the critical point.

ADVICE FOR AMATEURS.

The voltages applied to the plate circuits of amplifying tubes are not extremely critical and one voltage control will suffice. The detector tube, however, is often very critical and an efficient potentiometer will work wonders in controlling it.

Apparatus used for the reception of broadcasting is exactly the same as that used for the reception of code signals. The transmitting equipment, however, is different.

The use of a single wire for reception is advantageous because it lessens the amount of objectional interference in the way of static. It is equally as good as a multiple wire system for reception.

Defective "B" batteries will often cause roaring in the telephone receivers.

The electron often talked about is the smallest known quantity of negative electrical energy. In motion it makes up the electric current.

A "soft" vacuum tube is used as a detector tube and a "hard" vacuum tube as an amplifier. The terms "hard" and "soft" refer to degree of evacuation.

Radio waves travel at the same speed as light, namely 186,000 miles per second.

A wavemeter is an instrument used for checking up the wave lengths of sending and receiving stations.

Gas pipe or water pipe systems may be used for grounds, the latter being more advisable.

Lightning protection secured by grounding the antenna when not in use is essential and is required by the underwriters.

TIME HAD BROUGHT CHANGES

Aunt Jane Not Now Quite as Considerate as She Had Been in the Courtship Days.

In the days when Uncle Joe and Aunt Jane were courting they sat in the garden one night under a summer moon, silent and adoring.

"Joe, dear," suddenly said Aunt Jane at last, "I want to ask you something."

"Ask me anything, darling."

"Something is tickling my neck," she whispered. "If I let go one of your hands to drive it away would you mind very much?"

Their home is now noted for its extreme neatness, and Uncle Joe has been thoroughly trained to keep it neat; how thoroughly is shown by the fact that on a recent afternoon he went into the kitchen to get a drink. For a moment Uncle Joe stood before the sink gazing at the shining faucets. "Guess you've just washed up the sink, ain't you?" he inquired at last.

"Yes, I have," she replied. "Why?"

"Well," exclaimed Uncle Joe, with a slight sigh, "I did think I'd relish a drink of water, but I guess I can get along without it."—Los Angeles Times.

No Wonder.

"Pa, why do they say in the market reports that wheat is nervous?" "I guess, son, it is because it expects to be thrashed."—Boys' Life.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

By No Means.

MANY ACCIDENTS

AT FRANKFORT

The past week has been one of accidents. On Tuesday Eloise, daughter of Mr. and Mrs. F. J. Kohlhaugen, fell while visiting on the George Uttermark farm, near Matteson, and broke her left arm.

The fore part of the week the 12-year old son of Herman Subbert fell out of a hay mow and broke his arm.

On Thursday the son of Mr. and Mrs. Andrew Sohroth cut his hand with a butcher knife, inflicting a very deep gash. Dr. W. V. Hedges was called on all of these cases.

Sunday was a big day for the St. Peter Evangelical Sunday school, when they held their annual picnic in the Borman grove. The day being ideal, an immense crowd was present, and all had a good time. Refreshments were greatly in demand, and a rushing business was done in this line. The proceeds realized were large.

Much interest has been taken in the grand meeting of the Klu Klux Klan at Plainfield recently, and it is rumored that a number of Frankfort men are members of the Klan.

Frankfort is swallowing the dust this year, as it is said there will be no street oiling done this year. It seems that certain people will sign up to have the streets oiled, but when it comes their turn to pay their share, they refuse to do so, and thus the burden is thrown on a few public spirited citizens, who cannot see the joke of being made the goat all the time. Perhaps.

A. DREW SWANBERG, Tel. L. 72. Manhattan.

Claiming to be the oldest horse in the world, Lon Freeman, fifty-three, has charge of a string of trotting horses at the race track Champaign. He has been a follower of the turf for more than sixty years and is an authority upon every aspect pertaining to horse racing. He expects to drive his horses at a number of the leading harness races in Illinois during the coming season. His fastest horse is a trotter, a record of 2:10.

about three-fourths of the fruit vegetables crop of southern Illinois is being marketed co-operatively this year, it is estimated by J. Durst of the Illinois Agricultural Station, as the result of the organization in the last year of the Illinois Fruit exchange of 1,000 members in eight counties. One local of the exchange, at Villa Ridge, has marketed co-operatively so far this year 6000 worth of strawberries and raspberries.

A Dekalb County Telephone company is defendant in a suit for \$20,000 damages filed at Sycamore by Mrs. E. Griswold. It is alleged the company grounded one of its wires on a pole in front of Mrs. Griswold's home that during a storm lightning struck the wire at the same moment Mrs. Griswold touched it, with the result that she received a shock and

J. G. OSWALD. Mokena, Ills.

MOKENA

Mokena has been afflicted with a run of measles the past week, when seven cases broke out. As a result the school commencement exercises, which were to have been held at Hatch hall, Thursday night, were called off by order of Dr. G. A. Kerr. On Friday the school children held a picnic at the school yard, while the graduates went on a picnic excursion via auto to Moosehart. The measles cases are not serious, and no alarm is felt as to an epidemic.

The grand concert which was to have been held at the Mokena M. E. church on Tuesday night has been postponed until after July 4th, on account of the inability of Prof. Thompson to be present, due to an important musical gathering and a convention in Toronto, which will take him away for several weeks. The concert will be given shortly after the Fourth, the exact date to be announced later.

CHICAGO BRIDGE

The program given at the Chicago Bridge schoolhouse June 6th was a very big success. The program was opened with the song, "Voices of the Wood," followed by Miss Katherine McClaughey presenting the diplomas to the graduates, Miss Elisa Duckwitz and Mr. Frank Wiederman. There was such a large crowd present that fifty people or more stood in the doorways and looked in the windows. The program was indeed wonderful. All credit is given to the teacher, Miss Margaret O'Connor, who will be with us again next year. They had a wonderful flag drill and Scottish dance. The program started at 8 o'clock and ended at 10:45 with the song, "Smile and Say Goodbye." Mr. Klee made a very fine speech, also Mr. Wagner and Mr. Walsh. The three new school directors are greatly appreciated.

Mr. Smith also had two of his "old-time friends visit him Sunday, Mr. Arndt and Mr. Lietz, whom he had not seen for thirty years. He was greatly surprised.

Mr. and Mrs. Eisler celebrated their 6th anniversary Sunday. They went on a fishing trip at a Romeo. They didn't get any fish, but Mrs. Eisler had her arms sunburned.

Mr. and Mrs. O'Connor's daughter Elizabeth, who has been kept at home for Mr. Fred Nettle for about three years, has returned to her home in Chicago Ridge.

Newport's foundry has opened up again, and expects to stay open.

Perhaps if enough money can be assured without throwing all the burden on a few, something may yet be done to get oil before the summer is over.

Wm. Green, who has been taking music lessons from J. Wallace Spears of the Joliet Conservatory of Music, will graduate on June 19th at the Masonic Temple, Joliet. He will play in a piano recital.

The Frankfort baseball team is looking forward to a big game at the Monee Fair this year, when they will play the Beecher team.

Mrs. Henry Bettenhausen, Bert Larson and the son of Christ Kohl underwent operations for the removal of tonsils at the Silver Cross hospital, Joliet, Wednesday. All are doing nicely. Dr. Hedges was in charge of the cases.

The old Joliet and Eastern traction line is being dismantled now. The past week a work car has been run up and down the line. The signals and various other material have been removed. It is thought that the work of tearing up the rails and removing the trolley wires will be started soon. This writes finis to the interurban, which is now only a matter of history.

Shoe Repairing While You Wait

All kinds of shoe repairing neatly and promptly done at reasonable prices. Bring in your shoes and have them put in first class shape. All my work is guaranteed. Best of material used.

TINLEY PARK

Charles Andres was born Nov. 5, 1881, in the town of Orland. On March 19, 1914, he was united in marriage with Miss Caroline Laufer. To this union three children were born. Following two operations, he died at the St. Francis hospital, Blue Island on June 7th, 1922. Funeral services were held Sunday afternoon from the German M. E. church, and the edifice was far too small to hold the hundreds of people who came to pay their last tributes of respect. Rev. Muhlfinger of Chicago preached in English, and Rev. Zeuner in German. Burial in German M. E. cemetery.

The deceased leaves to mourn his untimely death his widow, two sons, Raymond and Bernard, and one daughter, Margaret, and two brothers and two sisters.

There were many beautiful floral offerings. There was an impressive musical part of the service. Mrs. W. Hollstein of Green Garden sang a solo, Mrs. John Schult and Mrs. John Andres sang a duet. Miss Mildred Andres, the pastor and the choir of the congregation also sang several songs.

A Children's Day program was held at the German M. E. Sunday school.

The Ladies' Aid of the German M. E. church were entertained at the home of Mrs. Mary Sipple, Thursday. Following were out-of-town guests: From Frankfort, Mrs. Paul Heuser, Mrs. Wm. Saugmeister, Mrs. Fred Hasenjaeger, Mrs. Fred Baumgartner, Mrs. W. Hollstein. From Orland, Mrs. Edgar Cooper, Mrs. G. Sayers, Mrs. Henry Launn, Mrs. Philip Barenz.

The sock social held June 6th at the Harry Brandau home by the Epworth League of the German M. E. church was very largely attended and all had a good time. The League is grateful to all for kind donations.

The Epworth League meets at the German M. E. church Sunday night.

The Sunday school picnic held at Bachelor grove Lutheran school grounds Sunday afternoon was fairly well attended.

Mrs. John Bettenhausen is very ill.

The public spirited citizens of Tinley Park have subscribed toward an oil fund, and 6,000 gallons of road oil have been purchased, with which to oil the village streets.

Cement is being laid on the cement road which is routed to come thru Tinley Park. The concreting is being started at the Midlothian end.

Miss Viola Wilke was a Joliet visitor Wednesday.

SPANISH DOUBLOONS

By
CAMILLA KENYON

Copyright, The Bobbs-Merrill Company
(CHAPTER XVIII—Continued.)

"I suggest," said Dugald, "that, our numbers having most fortunately diminished and there being, on the basis of Peter's calculations, enough to enrich us all, we should share and share alike." And this proposal was received with acclamations, as was a second from the same source, devoting a certain percentage of each share to Cookie, to whom the news of his good fortune was to come later as a great surprise.

Shortly before sundown Cuthbert and Cookie were dispatched by Dugald Shaw to the cliff above the cave with supplies for the inhumed pirates. These were let down by rope. A note was brought up on the rope, signed by Mr. Tubbs, and containing strangely jumbled exhortations, prayers and threats. A second descent of the rope elicited another missive, neatly folded and addressed in the same hand to Miss Jane Harding. Cuthbert gave this privately to me, but its contents must forever be unknown, for it went, unread, into Cookie's fire. I had no mind to find Aunt Jane, with her umbrella as a parachute, vanishing over the cliffs to seek the arms of a repentant Tubbs.

The fly in the ointment of our satisfaction, and the one remaining obstacle to our possession of the treasure, was the presence of the two pirates in our midst. They were not nice pi-

The Remarkable Program Was Triumphant Carried Out.

rates. They were quite the least choice of the collection. Chris, when he was not swearing, wept moistly, and so touched the heart of Aunt Jane that we lived in fear of her letting him go if she got the opportunity.

What to do with the pirates continued for a day and a night a knotty problem.

It was Cuthbert Vane who solved it, and with the simplicity of genius. "Why not send 'em down to their chums the way we do the eels?" he asked.

Dire outcries greeted the decision. Aunt Jane wept, and Chris wept. Oaths flowed from Captain Magnus in a turbulent stream. Nevertheless the twin were led away, firmly bound, and guarded by Dugald, Cuthbert and the negro. And the remarkable program proposed by Cuthbert Vane was triumphantly carried out. Six prisoners now occupied the old cave of the buccaneers.

With the camp freed from the presence of the pirates all need of watchfulness was over. The prisoners in the cave were provided with no implements but spades, whereas dynamite and crowbars would be necessary to force a way through the debris which choked the mouth of the tunnel. A looking over of the ground at the daily feeding time would be enough. Tomorrow's sun would see our hopes crowned and all our toil rewarded by the recovery of the treasure from the Island Queen.

CHAPTER XIX.

"Twixt Cup and Lip.

Next morning an event occurred sufficiently astonishing to divert our thoughts from even the all-important topic of the Island Queen. Cookie, who had been on the high land of the point gathering firewood, came rushing back to announce that a steamer had appeared in the offing. All the party dropped their occupations and ran to look. That the Rufus Smith had returned at an unexpectedly early date was of course the natural explanation of the appearance of a vessel in these lonely seas. But through the glass the new arrival turned out to be not the tubby freighter, but a stranger of clean-cut, rakish build, lying low in the water and de-

signed for speed rather than carrying capacity.

A mile offshore she lay to, and a boat left her side. Wondering and disquieted, we returned to the beach to await her coming. Was it another pirate? What possible errand could bring a steamer to this remote, unvisited, all but forgotten little island?

As the oarsmen drove the boat upon the beach the man in the stern sprang agilely ashore. Dugald Shaw stepped forward, and the stranger approached, doffing his helmet courteously.

"You are the American and English party who landed here some weeks ago from the Rufus Smith?"

His English was easy and correct, though spoken with a pronounced Spanish accent. His dark high-featured face was the face of a Spaniard. And his grace was the grace of a Spaniard, as he bowed sweepingly and handed Mr. Shaw a card.

"Senor Don Enrique Gonzales," said Dugald, bowing in his stiff-necked fashion, "I am happy to see you. But as you represent his excellency the president of the republic of Santa Marina I suppose you come on business, Senor Gonzales?"

"Precisely. I am enchanted that you apprehend the fact without the tiresomeness of explanations. For business is a cold, usually a disagreeable affair, is it not so? That being the case, let us get it over."

"First do us the honor to be seated, Senor Gonzales."

Comfortably bestowed in a camp-chair in the shade, the Spaniard resumed:

"My friend, this island belongs, as of course you are aware, to the republic, of which I have the honor to be a citizen. All rights and privileges, such as harvesting the copra crop, are strictly conserved by the republic. All persons desiring such are required to negotiate with the minister of state of the republic. And how much more, when it is a question of treasure—of a very large treasure, senor?"

The Scotchman's face was dark. "I had understood," he replied, without looking in the direction of Miss Higglesby-Browne, who seemed in the last few moments to have undergone some mysterious shrinking process, "that negotiations in the proper quarter had been undertaken and brought to a successful conclusion—that in short we were here with the express permission of the government of Santa Marina."

This was a challenge which Miss Browne could not but meet.

"I had," she said hoarsely, "I had the assurance of a person high in the financial circles of the United States, that through his influence with the government of Santa Marina it would not be necessary—in short, that he could fix the president—I employ his own term—for a considerable sum, which I—which my friend Miss Harding gave him."

"And the name of this influential person?" Inquired the Santa Marinese, suavely.

"Hamilton H. Tubbs," croaked Miss Browne.

Senor Gonzales smiled.

"I remember the name well, madam. It is that of the pretended holder of a concession from our government, who a few years ago induced a number of American school teachers and clergymen and other financially innocent persons to invest in imaginary coffee plantations. He had in some doubtful fashion become possessed of a little entirely worthless land, which formed the basis of his transactions. His frauds were discovered while he was in our country, and he was obliged to leave between two days, according to your so picturesque idiom. Needless to say his application for permission to visit Leeward island for any purpose would instantly have been refused, but as a matter of fact it was never made."

In a benumbed silence we met the blow. The riches that had seemed within our grasp would never be ours. We had no claim upon them for all our toil and peril; no right even to be here upon the island. Suddenly I began to laugh; faces wearing various shades of shocked surprise were turned on me. Still I laughed.

"Don't you see," I cried, "how ridiculous it all is? All the time it is we who have been pirates!"

The Spaniard gave me a smile made brilliant by the gleam of smoldering black eyes and the shine of white teeth.

"Senorita, with all regret, I must agree."

"What's in a name?" remarked Dugald Shaw, shrugging. "We were after other people's property, anyway. I am very sorry about it, Senor Gonzales, but I would like to ask, if you don't mind telling, how you happened to learn of our being here, so long as it was not through the authentic channels. On general principles, I tried to keep the matter quiet."

"We learned in a manner somewhat—that do you say?—curious," returned the Spaniard, who, having presented the men with cigars and by permission lighted one himself, was making himself extremely at home and appeared to have no immediate intention of hailing us away to captivity in Santa Marinese dungeons. "But before I go further, kindly tell me whether you have had any—ah—visitors during your stay on the island?"

"We have," Mr. Shaw replied, "very troublesome ones."

The Spaniard smiled.

"Then answer your own question. These men, while unloading a contraband cargo in a port of Mexico, near the southern border, grew too merry in a winery, and let it be known where they were bound when again they put to sea. The news, after some delay, found its way to our capital. At once the navy of the republic was dispatched to investigate the matter."

"On the way here I put in at Pana-

ma, where certain inquiries were satisfactorily answered. There were those in that port who had made a shrewd guess at the destination of the party which had shipped on the Rufus Smith. I then pursued my course to Leeward. But admit, my friends, that I have not by my arrival, caused you any material loss. Except that I have unfortunately been compelled to present you to yourselves in the character of—as says the young lady—pirates—madam, I speak under correction—I have done you no injury, eh? And that for the simple reason that you have not discovered what you sought, hence cannot be required to surrender it."

We looked at one another doubtfully. The ambiguous words of the Spaniard, the something humorous and mocking which lay behind his courtly manner, put us quite in the dark.

"Senor Gonzales," replied the Scotchman, after a moment's hesitation, "it is true that so far only a negligible amount of what we came to find has rewarded us. But I cannot in honesty conceal from you that we know where to look for the rest of it, and that we had certainly expected to leave the island with it in our possession."

The dark indolent eyes of our visitor grew suddenly keen. Half-veiled by the heavy lashes, they searched the face of Dugald Shaw. It seemed that what they found in that bold and open countenance satisfied them. His own face cleared again.

"I think we speak at cross-purposes, Mr. Shaw," he said courteously, "and that we may better understand each other, I am going to tell you a little story. At about this season, two years ago, the navy of Santa Marina, the same which now lies off the island, was making a voyage of inspection along the coast of the republic. It was decided to include Leeward in the cruise, as it had been unvisited for a considerable time. I hold no naval rank—indeed, we are not a seafaring people, and the captain of La Golondrina is a person from Massachusetts, Jeremiah Bowles by name, but as the representative of his excellency I accompanied La Golondrina. On our arrival at Leeward I came ashore in the boat, and found to my surprise a small sloop at anchor in the cove. About the clearing were the signs of recent habitation, yet I knew that the old German who had had the copra concession here had been gone for some time. No one responded to our shouts and calls."

"I turned my attention to the sloop. In the cabin, besides a few clothes, I found something that interested me very much—a large brass-bound chest, of an antique type such as is common enough in my own country. "Of course I had heard of the many legends of treasure buried on Leeward island. Consequently I was somewhat prepared to find in the chest, what in fact I did find there, over a million dollars in old Spanish coins."

"These coins, which were packed in strong canvas bags, were, as you may fancy, very quickly transferred to the cutter. We did not trouble ourselves with the unwieldy chest, and it remains, I suppose, in the cabin of the sloop, which I observed as we crossed the cove to have been washed up upon the rocks."

"This is a very interesting story, Senor Gonzales," said Dugald Shaw, quietly, "and as you say, your visit here deprives us of nothing, but merely saves us further unprofitable labor. We are grateful to you."

The Spaniard bowed. "You do me too much honor. But, as you remark, the story is interesting. It has also the element of mystery. For there remains the question of what became of the owner of the sloop. His final preparations for leaving the island had evidently been made, his possessions removed from the hut, provisions for the voyage brought on board the sloop—and then he had vanished. What had befallen him? Did the gold carry with it some deadly influence? One plays, as it were, with this idea, imagining the so melancholy and bloody history of these old doubloons. How, in the first place, had he found them? Through chance—by following some authentic clue? And then, in the moment of success, he disappears—puff! And Senor Gonzales disposed of the unknown by blowing him airily from the tips of his fingers."

"However, we have the treasure—the main point, is it not? But I have often wondered—"

"If you would like to hear the rest of the story," said Mr. Shaw, "we are in a position to enlighten you. That we are so, is due entirely to this young lady, Miss Virginia Harding."

The Spaniard rose and made obeisance profoundly. He resumed his seat, prepared to listen—no longer the government official, but the cordial and interested guest and friend.

The story, of course, was a long one. Everybody took a hand in the telling, even Cookie, who was summoned from his retirement in the kitchen to receive the glory due him as a successful strategist. The journal of Peter was produced, and the bags of doubloons handed over to the representative of the little republic. I even offered to resign the silver shoe-buckle which I had found in the secret locker on the Island Queen, but this excess of honesty received its due reward.

"The doubloons being now in the possession of the Santa Marinese nation, I beg that you will consider as your own the Island Queen and all it may contain," said Don Enrique to me with as magnificent an air as though the sand-filled bulk of a wrecked sloop were really a choice gift to bestow on a young woman."

(TO BE CONTINUED.)

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)
Copyright, 1922, Western Newspaper Union.

LESSON FOR JUNE 18

THE DOWNFALL OF JUDAH

LESSON TEXT—II Kings 23:1-21.
GOLDEN TEXT—Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap.—Gal. 6:7.
REFERENCE MATERIAL—Deut. 28:15-19; 25, 35, 37; II Chron. 33:1-22; Luke 19:41-44.

PRIMARY TOPIC—God Punishing Disobedient People.

JUNIOR TOPIC—The Capture of Jerusalem.

INTERMEDIATE AND SENIOR TOPIC—A Nation That Disobeyed God.

YOUNG PEOPLE AND ADULT TOPIC—Results of National Disobedience to God.

Zedekiah was made king of Judah by the king of Babylon (24:17), but in spite of this kindness and the word of the Lord spoken to him by Jeremiah (Jer. 38:17, 18; cf. Jer. 52:3), he rebelled against the king of Babylon. He relied upon the help of Egypt, but all that Egypt could do was to cause temporary interruption of the siege of Jerusalem.

1. The Siege of Jerusalem (vv. 1-3).

1. Time of (vv. 1, 2). It began on the tenth day of the tenth month of the ninth year of Zedekiah's reign and lasted about eighteen months. The tenth month according to the Jewish calendar corresponds to our December-January, as their calendar year began about the middle of March. The reason the exact time is given is that this was to be an event of great importance to the Jews in their exile.

2. The Method (v. 1). Nebuchadnezzar came in person with a large army and encamped against Jerusalem and built forts against it round about. It is thought that siege walls were built around the city, shutting it in. On the tops of these walls forts were built from which missiles of destruction could be hurled by their engines of war against the city. With the city shut in its fall was only a question of time.

3. The Famine (v. 3). It is estimated that one-third of the people of Jerusalem died of starvation.

II. Zedekiah's Flight and Fate (vv. 4-7).

1. "The City was Broken Up" (v. 4). The Chaldeans had succeeded in making an opening in the wall so large that they could make their way into the city in spite of all that the Hebrews could do. Resistance was carried on to the bitter end.

2. Zedekiah's Flight (v. 4). The king with his men fled by night toward the plain. His object, no doubt, was to cross the Jordan at Jericho and hide in the mountains east of Jordan.

3. Zedekiah's Fate (vv. 5-7). (1) He was overtaken in the plains of Jericho (v. 5). When his flight was discovered the Chaldean army pursued and captured him. (2) He was brought to the king of Babylon at Riblah (v. 6). Riblah was a town north of Damascus. It was the king's headquarters from which he directed his armies against Tyre and Jerusalem. Before Nebuchadnezzar, Zedekiah was tried as a criminal. (3) His fate (v. 7). His sons were slain in his sight; his eyes were put out; he was bound with fetters of brass; and they carried him to Babylon where he remained prisoner until the day of his death (Jer. 52:11).

III. Jerusalem Destroyed (vv. 8-10). The dismantling of the city was delayed a month, perhaps awaiting instructions from Nebuchadnezzar, who was at Riblah.

1. They Burnt the House of the Lord (v. 9). This was the sacred temple built by Solomon with additions and modifications. Before burning it they plundered it of all its sacred contents.

2. Burnt the King's House (v. 9). This was doubtless the palace built by Solomon.

3. Burnt All the Houses of Jerusalem (v. 9). The implication is that the common houses were left for the people (v. 12).

4. They Broke Down the Walls of Jerusalem. The aim was to render the walls useless as a means of defense.

IV. The Disposition of the People (vv. 11, 12).

1. Carried Them into Captivity (v. 11). The people who were left in the city and those who had deserted to the Babylonians were carried to Babylon; all such as would be of use in Babylon.

2. The Poorest of the Land Were Left (v. 12). The people who would not likely make any trouble were left as vine-dressers and husbandmen. Doubtless they were looking forward to colonization by foreign peoples. The object in leaving these people was that the country might be ready for their coming. Over these people Gedaliah was appointed as governor, with headquarters at Mizpah.

To the Thief.

Let him that stole, steal no more; but rather let him labor, working with his hands the thing which is good, that he may have to give to him that needeth.—Ephesians 4:28.

The Greatness of God's Mercy.

Remember me, O my God, and spare me according to the greatness of thy mercy.—Nehemiah 13:22.

No Peace for Them.

There is no peace, saith the Lord, unto the wicked.—Isaiah 48:22.

Had Your Iron Today?

Never Mind—Re-vitalize

YOU BET it's warm—the more need then for keeping the vitality up to par.

Vital men resist heat easily. Land-guid ones are floored. Re-vitalize yourself and you won't mind the weather.

Tin Can.
An old lady was crossing the street the other day. A dog ran into her with such force that it knocked her down. Just then a light auto ran over her. A gentleman witnessing the accident came to her assistance. He said: "Lady, did that dog hurt you?" She looked at him a little dazed and replied: "No, the dog didn't hurt me, it was the tin can tied to its tail."

SAVE SHOES AND STOCKINGS
They will last twice as long if you Shake Into Your Shoes ALLEN'S FOOT-EASE, the powder for the feet. It takes the friction from the shoe and gives quick relief to Corns, Bunions, Callouses, sore, aching, swollen, tender feet. Shake Allen's Foot-Ease into your shoes and enjoy the bliss of feet without an ache.—Advertisement.

She Said Something.
Every day new examples of the versatility of the very young come to hand. The latest is about the little girl who forgot her manners when she was handed a piece of candy. "Aren't you going to say anything to me?" asked her mother. And the tiny youngster threw her arms around mother's neck and exclaimed: "I'll tell the world, mother, you're some kid."

More Artistic.
"Dearest," he said, sighing like a furnace, "it doesn't seem like the same old smile you used to give to me." "Oh, no, Jack," replied the sweet thing, "this is a new one. I have been studying at a school of dramatic art."—Florida Times-Union.

Literary Amenities.
George Moore, the English novelist, and a group of other literati were discussing recent books. Mr. Moore wished to refer to the author of a new publication, but could not recall his name. "You know," said Moore, "the man with the funny name. Dear, dear, what is it? You know, a stupid name, a silly name." "Shaw?" suggested some one. "That's it," said Moore. "Shaw! What an extraordinary name!"

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it Bears the Signature of *Dr. J. C. Watson*. In Use for Over 30 Years. Children Cry for Fletcher's Castoria

One Reason for Haste.
Two six-year-old boys were passing bills one day in Fairmount. They stopped, out of breath and tired, at the home of a relative for a brief rest.

"Why should you go so fast?" asked the relative. "You have plenty of time and it's too hot weather to hurry so."

"Oh, was the answer, 'we've just got to hurry in order to keep up with each other.'—Indianapolis News.

Christ, the Firstfruits

By REV. JOHN C. PAGE
Teacher of Bible Doctrine, Moody Bible Institute, Chicago.

TEXT—Now is Christ risen from the dead and become the firstfruits of them that slept.—I Cor. 15:20.

The Bible is a book of facts out of which issue great spiritual truths. These truths have been formulated into doctrines. To "the natural man," these doctrines are like the dry bones of Ezekiel's vision—very many and very dry. To the regenerated man they are like the other part of that vision—when the dry bones had been gathered together, breathed upon from heaven, vitalized and made to stand upon their feet, an exceeding great army ready for battle. If you are a Christian believer, beware of that which minimizes the importance of Christian doctrine.

The value of Christian truth and doctrine lies in its ability to supply spiritual power, to furnish moral incentive and to impart mental vision or understanding. This very truth of Christ risen from the dead, the firstfruits of them that slept, is an example of this. When believed and received it operates in a saving way: "If thou shalt confess with thy mouth the Lord Jesus Christ, and shalt believe in thine heart that God hath raised Him from the dead, thou shalt be saved."

Salvation Comprehensive.

Salvation is a big word, and comprehends the whole process of God's remedial work, past, present and future. It includes the resurrection of Christ as the firstfruits and the resurrection of believers in Christ as the harvest. The firstfruits is the pattern and pledge of the coming harvest. In the Mosaic law the Hebrew people were directed to bring a sheaf of the field, like other sheaves that were to be gathered later, and to wave it before the Lord as the first sheaf of the harvest. So is Christ presented as the firstfruits of the glorious and plentiful harvest to come—"Because I live, ye shall live also." There is spiritual power in this. What is true of our Lord is true of every believer in Him. Everything is made dependent on the believer's position as united to Christ. This underlies the whole philosophy of the Gospel message, in which we are invited to change our position from headship in Adam to headship in Christ, who through His atonement for sin and His victory over death and the grave, has become Savior to all who put their trust in Him.

The doctrine of our identity with Christ and our participation in His risen life and victory supplies moral incentive for a holy walk, and for sacrificial service. This very truth of the bodily resurrection of Christ and of the resurrection of Christian believers when He returns, is the ground of the appeal in I Cor. 15:58—"Therefore be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord."

The Apostle John used the same basis of appeal and finds moral incentive in the same facts—"Beloved, now are we the sons of God, and it doth not yet appear what we shall be, but we know that when He shall appear we shall be like Him, for we shall see Him as He is. And every man that hath this hope in him purifieth himself, even as He is pure."

These great doctrines concerning the future blessings of Christian believers are never presented as abstract truths or for mere academic discussion, but as vitalizing truths supplying the necessary incentive for the conflict with evil within and without.

Worldly Philosophy Inadequate.

Such a truth as this concerning our Lord's resurrection as the firstfruits of a great harvest, to follow imparts clear mental vision and understanding concerning the future. It reclaims the future from that dreary indefiniteness and unthinkableness into which false philosophy and false spiritualism have put it. The New Testament teaching of the resurrection is plain, and when believed it saves us from the delusive teaching against which the Holy Spirit through the inspired writers always puts Christians on their guard. "Beware, lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not after Christ." This philosophy may be very attractive; it is to the natural mind. It has in it a speciousness and an appearance which promise much, but which in the end give no rest, no power for a holy life and no solid hope for the future. It belongs to the rudiments of the world and is not after Christ.

The religion of the New Testament is plain and homely. It begins with a babe in a cradle. It follows that babe all the way through death and resurrection to the place of power where the crucified and risen Man is seated on the right hand of God. It bids us live in the risen Lord and look to become like Him, risen in His very image in a glorified body when He shall come. From the heavens He speaks—Believe in Me, live in Me, and you shall arise in Me when I return.

THE KITCHEN CABINET

Copyright, 1922, Western Newspaper Union.

Take every good thing that comes your way. There are so many pleasant little outings that would send you home rested and with different viewpoint, but you think up some excuse and do not go.

SUMMER DRINKS

There is nothing in the line of food that will take the place of refreshing drinks to a parched throat. The appetite craves them during warm weather, and if a few bottles of ginger ale and a syphon of carbonated water are kept in the ice box, with the raspberry and grape juice prepared last season, supplemented with lemons and other delicious fruit juices, one need never have the same drink twice during the hot days.

Often a given formula well liked by the one who passes it on lacks something that one's taste and that of her family needs to supply. If one is careful to write down just the proportions of a drink that just suits, and always uses them correctly, the drink will always be satisfactory.

Old-Fashioned Ginger Water.—This is the drink used in the fields in the early days, when the Pilgrim fathers were harvesting their wheat. Take one heaping tablespoonful of ginger; mix with one-half cupful of sugar; add one tablespoonful of lemon juice or vinegar and three pints of chilled water. Stir well and serve very cold.

Fruit Punch.—Boil together for ten minutes three cupfuls of sugar and two cupfuls of water with the rind of one lemon and one orange. Strain and, while hot, add one glass of currant jelly. Set on ice and, when ready to serve, add the juice of nine lemons, five oranges and one cupful each of cherries and shredded pineapple. Pour into a punch bowl; add ice and water, adding charged water, a pint at a time, to give it a zest.

Orange Pekoe Punch.—Make five cupfuls of orange pekoe infusion, using three teaspoonfuls of the tea. Boil one cupful of water and two cupfuls of sugar for five minutes; when cool, add the juice of seven lemons, two oranges, and set on ice until ready to serve. To the tea infusion add plenty of ice and pour into the punch bowl; add the fruit juices, the sugar sirup and one cupful of crystallized cherries, one cupful of shredded pineapple, a few sliced strawberries or a few slices of orange. Add more water, if needed, with a little more sugar.

Strawberry and Pineapple Nectar.—Take one pint of pineapple juice, four tablespoonfuls of lemon juice and one pint of crushed strawberries. Combine the juice and serve in glasses filled with crushed ice. Each glass may be garnished with a perfect berry.

What a wonderful world this would be if we could all honestly say with Abraham Lincoln, "I do the best I know, the very best I can; and mean to keep right on doing so until the end."

SOUR CREAM AND MILK DISHES

On the farm there is usually a supply of sour cream and the right use of this delicious food should be studied, for there are countless ways of using it in the preparation of other food.

As the acidity of milk differs it is hard to give the proportions of soda to use to equalize it. However, one-half teaspoonful to one cupful of milk or cream is considered sufficient.

Quick Cream Cookies.—Take one cupful of sour cream, one cupful of sugar, one egg, two and one-half cupfuls of flour, one-half teaspoonful of soda and one teaspoonful of baking powder sifted with the flour. The soda may be stirred into the milk. Add salt and nutmeg for flavoring and drop by spoonfuls on a well-greased baking sheet. Sprinkle with sugar, add one-half a nutmeg and bake in a quick oven.

Sour Cream Pie.—Take one cupful of sour cream, two-thirds of a cupful of sweet milk, one-half cupful of chopped raisins, one tablespoonful of lemon juice, one tablespoonful of flour, one teaspoonful of cinnamon, the yolks of two eggs and a little salt. Bake in one crust and use the whites for a meringue.

Graham Gems.—Beat one egg, add one cupful of sour milk and one cupful of graham flour, salt and soda, one-half teaspoonful each. When well mixed add two tablespoonfuls of melted butter and bake in a quick oven in gem pans.

Salad Dressing.—Beat the yolks of two eggs until light, stir in gradually one-half cupful of thick sour cream, add one-half teaspoonful of salt, a dash of pepper, two tablespoonfuls of tarragon vinegar and the well-beaten whites of two eggs.

Sweet Potato Pie.—Take one cupful each of sour cream and sugar, one pint of mashed sweet potato, the yolks of four eggs, one teaspoonful of cinnamon, one-half a nutmeg and salt to taste. Bake in one crust and spread while hot with strained honey. A meringue may be placed over it if preferred; the latter will not be so sweet.

Nellie Maxwell

Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

SHARKS AND CRABS

"There are sharks known as Rays," said Daddy, "and there are sharks known as Skates and they're both supposed to belong to the Flat-tailed Shark family."

"There are Common Spined Dog-Fish Sharks, and there are Ground Sharks."

"There are Sleeper Sharks, who like it where the water is very cold, and there are Basking Sharks. And there are Hammerhead Sharks."

"Now Sharks live in all kinds of waters—in all parts of the world, but dangerous ones are not about where we are, for they are such enormous fishes and they want to be where it is wilder."

"Mrs. Shark comes to a shallower water when the eight or nine little Sharks (if we can speak of them as little Sharks) come into the world."

"They also travel about after bluefishes and other kinds of fishes they want to have for their breakfasts and dinners and suppers."

"The Sharks that are along American coasts are harmless and mostly they belong to the Dusky Shark family, a family of Blue Sharks."

"Oh, there are so many families of them! And such strange names as they have!"

"There are any number of other Shark families whose names I have not mentioned, such as the Nurse Shark, the Smooth-Toothed Shark, the Hound Shark, the Fresh-Water Shark, and many others."

"They are very, very big, but as I've never seen a Shark I cannot tell you much else about them, and I believe I was only asked for half a story about them anyway."

Nick and Nancy laughed, for Nick had asked Daddy to use up half of the story time by telling him just a little about Sharks and Nancy had chosen Crabs for the second half of the story time.

"I don't believe," Nick said, "that Sharks are very interesting, but it seems funny to think of Sharks traveling about."

"Yes," said Daddy, "I agree with you, for I am sure if I were the size of a shark I wouldn't want to move myself about, for it would be too much of a job."

"Of course all Sharks do not travel about, but some live always where warm and cool waters meet where they can find the food they like best. But, dear me, we are using up more than half the time talking about Sharks."

"I don't mind," said Nancy. "Well, we won't waste another minute on Sharks," Daddy said.

"Hello," said Mr. Horseshoe Crab to Mr. Rock Crab. I am very happy in this pleasant basin.

"Of course it's not like a basin that can only hold just so much water. Mine changes when the tide comes in and goes out. Sometimes I have lots of water and sometimes not so much."

"But I am safe, for though I have a queer shape and look dangerous, I'm not good to eat, I'm thankful to say."

"I am," said the Rock Crab. "Yes, I am, but still I am not eaten as yet!"

"I'm about the smallest of the lot," said the Sandbug, "but I can get about and have a good time. I'm not slow in the way I move around."

"I am the prettiest of all," said the Lady Crab. "How I love the sandy ground under the water."

"Yes, I am a great sand lover."

"Well," said the Horseshoe Crab, "I think I am the luckiest of you all, for I look as though I were quite dangerous and I am not good to eat."

"That is pleasant, yes it is pleasant," And then the Horseshoe Crab said,

"I hope they'll keep tabs 'On the different crabs. 'And will remember that I 'Am no good to eat or to buy!"

RIDDLES

Why does a woman who gives her husband "a piece of her mind" usually take as much as she gives?—Because she generally manages to take away the peace of his.

When is a nose not a nose?—When it is a little reddish.

Why should turtles be pitied?—Because theirs is a hard case.

What is it that lives in the winter, dies in the summer and grows with its root upward?—An icicle.

COULD NOT HIT A LICK FOR MONTHS

Petersburg Resident Says She Had About Lost Hope of Getting Better—Now Well and Happy.

"Tanlac has been such a blessing to me I can't help singing its praises," said Mrs. T. J. Archer, highly esteemed resident of 1147 Shepard St., Petersburg, Va.

"I had indigestion so bad I couldn't eat a thing without being in misery for hours, and the pain around my heart caused by the gas seemed all I could stand. I constantly had headaches and awful spells of dizziness. Then to make matters worse rheumatism in my arms, shoulders and knees almost drove me to distraction, and for three months I couldn't do a stroke of work."

"I had just about decided it was no use to take any more medicine when my husband brought me a bottle of Tanlac. Now I never have a touch of indigestion. Headaches and dizzy spells are a thing of the past, and rheumatism has left me entirely. I never have known a medicine to equal Tanlac."

Tanlac is sold by all good druggists.

Heinrich's Share.

Heinrich—Vot vos you doing, Hans? Hans—I vos my vill making. To mein vife everything I give—to mein sister the remainder I leave—to mein brudder the residue shall have—and all that vos after that left over to you, Heinrich, is.—Boston Transcript.

The Cuticura Toilet Trio.

Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them.—Advertisement.

EXAMPLES OF REAL OPTIMISM

Only Fair to State, However, That They Are Not Actual Happenings of Record.

"Fire? Fiddlesticks, young man. The booklet says this hotel is absolutely fireproof. Go away and let me sleep."

"What's this—from the income tax bureau? Good! They probably are sending me a refund."

"I don't seem to be able to get central, Mary, but I'm sure those burglars won't be through in the cellar for some time yet."

"It's a good thing Jack has gone over to Gloria. He'll appreciate me all the more after he tires of her."

"Lots of time, George, dear. Just try again and give her a little more gas. That train will stop rather than hit us."

"I feel I'm going to lose my patti-coat before another block, but I'll probably look snappier without it."

"Ten years in Sing Sing? Thank you, judge. I've always wanted to wear a light suit, but I never had the courage."

"Triplets? Hot dog! That just completes the children's baseball nine!"—Life.

But on an Average?

"I hear your wife is a 200-pounder." "Yes, and some days she pounds me more than that."

EACH IS A GENUINE GOODYEAR

Each of the two tires illustrated above is a genuine Goodyear through and through.

One is the famous reliable 30 x 3 1/2 inch Goodyear All-Weather Tread Clincher.

Its companion is the popular 30 x 3 1/2 inch Goodyear Cross Rib.

The Goodyear Cross Rib is built of the same high grade Egyptian cotton fabric that goes into the All-Weather Tread Goodyear.

It has a long-wearing but differently designed tread, and sells for less money.

More than 5,000,000 of these tires have been sold in the last five years.

Their fine performance has demonstrated the folly of buying unknown and unguaranteed tires of lower price.

Ask your Goodyear Service Station Dealer about their advantages.

GOOD YEAR

HAD NAVAL OFFICER GUESSING

Peculiar Combination of Names Seemed to Be Almost Too Much Out of the Ordinary.

While Lieutenant Commander H. E. Parsons, navy recruiting officer at Houston, Tex., was sitting at his desk a few days ago a young man entered and said he wanted to enlist.

"What is your name?" the officer asked.

"Bryan Dry," was the reply.

"You are a namesake of William Jennings Bryan, I take it," suggested the officer.

"Yes, sir."

"What is your home address?" was the next question.

"Moonshine Hill."

Parsons found on further inquiry that there is a Moonshine Hill in Texas and that Bryan Dry was one of its young inhabitants. Without more questioning, the applicant was signed up for a term of service in the navy.—Kansas City Star.

Twenty years after, one looks at his diploma with a sort of pensive amusement—but kindly, too.

An honest man's word is as good as his bond.

To Honor Canadian Heroes.

Six thousand soldiers' graves, located in 1,200 cemeteries, scattered throughout Canada, are to be marked with suitable headstones by the Imperial war graves commission and will receive perpetual care. These are the graves of members of the Canadian expeditionary force and the royal air force who died in Canada on the way to or from the front. Included among the number to be cared for are the graves of a few alien enemies who died while under internment during the war, and which, under the terms of the peace treaty, must be looked after.

Bringing Him to the Point.

Miss De Muir—Papa has forbidden you to come to the house. He says you are a dangerous man. "Dangerous. What can he mean?" "He says you are the kind of a man who will hang round a girl all her life and never marry her." Then he proposed — Edinburgh Scotman.

Clever Boy.

Mother—"You should learn to make things go as far as possible." Johnny—"Should I stretch the truth, ma?"

Envy will find faults where there are none.

Here's a real treasure from Nature's storehouse

GOOD old Mother Nature has placed in wheat and barley the wonderful food properties which build and sustain life and health.

Many so-called "refined" foods are robbed of vital elements which the body needs.

Grape-Nuts—that famous wheat and barley food—brings you all the natural goodness of the grains in perfected form, with a crispness and flavor that charm the appetite.

You will find Grape-Nuts an ideal dish for breakfast or supper-time. Ready to serve from the package, with cream or good milk.

Order Grape-Nuts from your grocer today.

Grape-Nuts—the Body Builder

Made by Postum Cereal Company, Inc. Battle Creek, Mich.

"There's a Reason"

ORLAND

Another old settler called to rest. Mr. Joe Horn of Orland answered the call of his God at 5:15 p. m. May 31, 1922, at his daughter's home, Mrs. Hattie Koehler, at Blue Island.

Mr. Horn attained the age of 68 years, 9 months and 13 days. He was born in Hessin, Germany. Came over at the age of 2 and located in Orland township. Many years he worked at the blacksmith trade with his brother in Tinley Park. Thirty-eight years ago he settled at Orland, doing blacksmith work until January this year.

Mr. Horn had been ailing since February, and continually lost strength and weight, until finally all hope of recovery was given up. He died in true faith in his Savior, death being caused by cancer of the bladder.

He leaves to mourn: A sorrowing widow, six children—Mrs. Philip Uthe, Henry, George, Arthur and Robert, and Mrs. Hattie Koehler; three step-children—V. M. Keuch, Christ Keuch and Mrs. Willie Rauch; one brother—Wm. Horn, of Missouri; one sister—Mrs. Maria Schorter, of Iowa; 43 grandchildren, 8 great-grandchildren.

The funeral, attended by over 450 people, the whole community paying their last respect, was held at Christ Lutheran church. Rev. W. O. Greve spoke words of comfort, both English and German, basing his remarks on Luke 2, 29-30. The school children rendered a very inspiring hymn.

Mr. Horn was an ardent church worker, and a warm friend of our parochial school. Many years he served as trustee, always attending services. Orland has lost not only a Christian church member, but a friend. Our sympathy is extended.

The voting members' meeting of Christ church Sunday was well attended, and gave power of attorney to its building committee. Many pledges are being paid, and many have promised to send their children to Christ school, which has just finished its first successful year.

Mr. and Mrs. George J. Haensler of Milwaukee are visiting their daughter, Mrs. W. O. Greve, who, with her daughter Ruth, intends to go on an extended visit to Milwaukee.

Rev. Greve is still busy tying hearts of matrimony. May 27th Miss Lillie Weirman was united in marriage to Irvin Flasing. May 28th Miss Hattie Enders was united in marriage to Howard Hallett. June 3rd Miss Minnie Witt was united in marriage to Albert O. Michael.

Miss Alice Jackson of Decatur is visiting Mr. and Mrs. Leonard Kay.

Mr. and Mrs. I. D. Marti, Miss Alice Jackson, Sias and Gordon Kay were the guests of the Wm T. Beagley family Sunday, June 11.

WORTH

The marriage of Miss Elizabeth Kobza, daughter of Mr. John Kobza, of Lemont, Ill., and Mr. Joseph Kaufman will take place Saturday, June 17th, at Lemont. It is planned to be a small church wedding.

Due to the absence of the minister, there will be no preaching service at the M. E. church next Sunday morning, June 18th. The Sunday school will meet as usual.

A Chicago picnic club has opened a Sunday picnic ground here, and are drawing big crowds.

Mr. Rink, motorcycle policeman for Worth, has also opened an open air picnic ground at 95th and Harlem, and holds dances every Wednesday, Saturday and Sunday.

The News-Bulletin being without a correspondent for the past few weeks, has been unable to give Worth items, but Mrs. F. J. Hildebrandt has been secured as local correspondent, and by giving your news items to her, an interesting Worth column will be assured.

MOKENA

Mokena people are getting tired of swallowing dust all summer, so a movement was launched the latter part of the week, with August Hentsch at the head as manager, to collect money with which to purchase road oil and to apply same on the streets of the village. Subscriptions have been coming in fine, and everyone is ready to support this move in order to make Mokena a dustless town. There is one thing, tho, that the public would like to see carried out, and that is that other streets besides the main street be oiled, and that the same stunt as was done a few years ago, when the main street was flooded with oil so that it stood in the gutters, while the side streets did not get any oil, be not repeated. When the people pay to have the street in front of their premises oiled, they expect to have it done, and not have the Front street receive all the oil. We trust that Mr. Hentsch will see to it that the right thing is done by every subscriber to the oil fund this year.

Seven Mokena boys of the K. P. took the Dokk degree of the K. P. lodge at Joliet Saturday. A big time is reported.

The K. P. lodge of Joliet is now planning to hold a monster picnic at the Capple Grove this summer, the date to be announced later.

St. John Brotherhood met Wednesday night.

Mr. and Mrs. John Harnyak and daughter Lois, Mrs. James A. Jeffes of Englewood were guests of Mr. and Mrs. T. H. Davidson Sunday, June 11.

Stewart and Ray Loebe, who attended Northwestern University, are home for the summer.
